Number of batteries replaced.		If yes, what hazard?
Number of carbon monoxide (CO) alarms installed and tested.		

I am the resident of the home listed as the address above. Today, I received the services indicated on this form. I also received instructions about how to use and maintain smoke detectors/alarms. It is my responsibility to maintain the smoke detector(s) per the manufacturer's recommendations and to test the detector(s) monthly. It is also my responsibility to make sure I have the appropriate type of smoke detectors in my home. Different types of detectors, ionization and photoelectric, detect fires differently and experts recommend having both types. It is additionally my responsibility to make sure that I have the appropriate number of smoke detectors and that the detectors are in appropriate locations. The Greenville Fire Department and its partners are not responsible for determining the appropriate type, number, or location of smoke detectors. I authorized and give the Greenville Fire Department permission to install smoke detectors and/or carbon monoxide detectors in my home. I understand that this installation will include the need to drill holes in my ceiling and/or walls. In addition, I hereby release and will defend, indemnify, and hold the Greenville Fire Department harmless from any claim for damage(s) or loss that may occur as a result of the installation, operation, maintenance, and use of the installed smoke and/or carbon monoxide detector(s).

My signature indicates that I have read the information above and that I agree with its contents.
